

Public Hearing      March 6, 2012

The Public Hearing was called to order at 7:30 pm to consider a petition from Bruce and Jackie Schlifer to detach land from the Mindoro Sanitary District Number 1.

The Schlifer's would like to take advantage of Farmland Preservation incentives on this parcel.

Chairman Hesse explained that this should have been done when the boundaries for the Sanitary District were expanded. In speaking with several State Departments, he learned that the property does qualify for these incentives. He further stated that the only burden on residents of the Sanitary District would be a slight reduction in the number of acres used to establish the tax levy for the Sanitary District.

No further comments or questions from the public.

A motion to adjourn the public hearing was made by Kirchner, seconded by Mulder. Public Hearing adjourned at 7:40pm.
