Roads:

- The TRID application for Davis Creek road will be amended to modify the job from reconstruction to reconditioning, as it was determined that the curves do not require as much work as initially expected. It has also been determined that some of the landowners will be asked to provide limited temporary easements so that drainage issues can be addressed.

- The supply of salt/sand for winter road should be adequate; screenings are being mixed with the sand from the Paisley Sand pit.

- La Crosse County Highway Department has indicated that they will not be able to help with the needed repairs on M. Olson Road. They suggested that we contact Kammel Construction.

Solid Waste:

- The cost to dispose of mattresses and box springs at the landfill is \$15.00 each

- The ramp access to the recycle dumpster has been modified making it longer with less slope, expanded metal added and the treads spaced farther apart so there will be less accumulation of the sand on it. The last five feet of the ramp can be folded up when not in use.

Emergency Services:

- The Fire Department is going to test the use of software that allows them to receive pages outside the page area.
