## **PUBLIC CONCERNS:**

Larry Craig noted that LaFarge had received a large grant for utility infrastructure. He was curious why Farmington did not apply for that award. Mike noted that the grant awarded to LaFarge was received through The Community Development Block Grant Public Facilities (CDBG–PF) fund and that the town did not meet the income restrictions set forth for the grant.

Larry also mentioned that he spoke with LaCrosse Memorials and was given an estimate of \$200 to repair his relative's headstone. He asked that the town let him know when that particular stone has been repaired, as he would like to pay for that portion of the bill.

Mike announced that he has once again been in contact with the LaCrosse County Health Department regarding the lack of dumpsters being supplied for the boardwalk apartment residents. He also expressed concern regarding additional debris that has collected outside of the laundry mat. The county shared their attempts to reach the property owner thus far, promising to escalate the communication.
